

## RUCKER IN BAD AS JITNEY DRIVER

The entire force in the office of Sheriff Bailey, while asserting their fondness for and devotion to Under Sheriff Rucker allege that as a jitney engineer he is a scoundrel and a monumental failure. In fact, some of

the force go so far as to assert, without evasion of any kind that it is as much as a man's life is worth to climb into the rear seat of a jitney and start upon any sort of a journey what ever, unless it be a possible trip to the happy hunting grounds, with Mr. Rucker at the steering wheel. Deputy Castleman has even gone so far as to state that if Mr. Rucker handled a six gun with the same careless abandon with which he aims the front end

of the festive Ford, prisoners, officers and civilians would be in constant and imminent danger of shuffling off the mortal coil aboard his sporting jitney. When he invites any or all members of the "force" to join him in a little joyride he is met with a polite but a firm refusal.

## A Great National Public Utility

### That concerns all merchants and all people

THE original Cash Register rang a bell, indicated and recorded the amount of the purchase. It benefited the merchant only.

In a third of a century this old model has developed into a Cash Register that directly benefits every man, woman and child who spends money in a store.

This new Cash Register equally concerns every merchant and clerk, every banker and wholesaler in this land.

It furnishes every customer with a receipt or sales slip.

It prints on this the amount paid or charged.

On this is also printed the date of the sale and who made it.

It forces a duplicate, printed record for the merchant.

It prevents disputes over charges and bills paid.

It saves shoppers' time.

It gives the merchant all his profits. It gives him more money for his family.

It promotes more and quicker sales.

It protects each clerk against making errors and against the mistakes of others.

It rewards the diligent clerk by telling his employer which one makes the largest number of sales and which one gets the greatest amount of business.

It assures the banker additional security for the money he loans the merchant.

It gives the wholesaler additional assurance that the merchant will have money to pay his bills.

It furnishes the banker and the wholesaler mechanical evidence that the merchant's statement of his business is correct.

It is a business necessity.

### MERCHANTS!!
